Patricia-Ann Constance-Wilson Perkowski put together and presented a day for the deacon community on Project Rachel.

It was an excellent program and those in attendance came away with a stronger sense for those women and men who have been involved with the decision to have an abortion and have been struggling with the guilt associated with such a decision ever since. Patricia's compassion and deep spirituality were quite evident. She was well versed in her topic but came across as down to earth and pastoral.

Sincerely,

Dc. William Sirl
